One of the stipulations from the DNR on issuing a tournament permit is that no more than 50% of parking spots at state-owned public launches can be used by tournament participants. Watercraft operators must indicate where they will park their vehicle/trailer during tournament hours. Number in () indicates number of spaces available to tournament participants at these state-owned public launches. You will be notified if there are no more spaces available to tournament anglers and you will have to reserve space at another location.
